Company Profile

Greetings from M/s AJ Technovations Private Limited..!!

We are pleased to introduce **M/s. AJ TECHNOVATIONS PRIVATE LIMITED** as:

- Authorized Dealer of **KAESER COMPRESSORS (INDIA) PVT LTD.** for Ahmedabad & surrounding region.
- Authorized Dealer of **INSTAMOD AIR PIPE PRIVATE LIMITED** for Gujarat region.
- Equipment & Service provider for Industrial transformers, DG sets, project consultancy
- Plate heat exchangers, sales and service and parts of all type of reputed PHE makes.
- High Speed Separators for Oil Centrifuges and Dewatering Decanter Sales & Service Provider
- Rental Equipments Service Provider

KAESER Compressors (India) Pvt. Ltd. (KCIPL) is 100% Subsidiary of **KAESER Kompressoren SE, Germany**, world leader in manufacturing Air Compressors and Compressed Air products.

The compressors and allied equipment manufactured by **KAESER** cover a broad range and find applications in all industries ranging from General Engineering, Cement, Steel, Pharmaceuticals, Automobile Industry, Textiles, Printing Machinery and Electronic Industry etc.

INSTAMOD AIRPIPE PVT LTD. (Brand AIRPIPE) is subsidiary of **Eco pipe company Ltd. (Hongkong)** which has been engaged in the air compressor industry and air transmission industry ever since 1997 and in 2008 they started compressed air pipe line business.

INSTAMOD AIRPIPE (MOC: Aluminium/ Steel) is specialized in air pipe work system for new projects, for renovation, extension or modification of existing system for industries in Textile, Electronics, Food, Automobiles and Chemicals.

AJTPL also We provide services for selection of right heat exchanger for the various industries, Separators, Rental Equipment & Project Consultancy

KAESER COMPRESSED AIR SYSTEM

KAESER has main manufacturing plants in Germany and products are sold over 90 countries through more than 50 subsidiaries, branch offices, and service network worldwide.

In India, **KCIPL** has manufacturing plant located at Plot No 1 & 2, Survey No 297,298,299, Indo-German Technology Park, Urawade, Tal. Mulshi, Dist. Pune. India. This apart, there is countrywide network of aftermarket facility.

Being a subsidiary of **KAESER Kompressoren SE, Germany**, **KCIPL** enjoys the privilege of a free and easy access to the latest technological know-how. This allows a constant up-gradation in the quality of our products. Because of our patented design of **SIGMA PROFILE**, which is used in designing the profile of the rotors, **KAESER** has been able to produce **more compressed air with less operating cost**.

KAESER – ROTARY SCREW AIR COMPRESSORS

KAESER Product range in the Air Compressor group comprises:

- Stationary Screw Compressors - 9 to 2950 cfm / 3.5 to 15 bar(g) / 2 to 500 Kw
- Variable Speed Drive Screw Compressors with frequency control - up to 500 Kw
- Stationary reciprocating compressor – 3 to 120 cfm / 0.55 to 18.5 kW
- High pressure booster compressors - up to 45 bar(g)
- Stationary Dry screw Compressor – 450 to 1800 cfm / 3 to 10 bar(g)
- Rotary Blowers - 50 to 4650 cfm
- Vacuum pumps - 170 to 550 cfm
- Portable compressors
- Dental Compressors
- Breathing air compressor systems
- Refrigeration and Desiccant air dryers
- Compressed air filtration & Condensate Treatment Systems

Apart from above product range, **KCIPL** also offers complete turnkey solutions for all your compressed air needs. Thus becoming the single source who can offer

TOTAL SOLUTION OF COMPRESSED AIR REQUIREMENT

INSTAMODE AIR PIPE

We have successfully won over 15000 users at home and abroad. AIRPIPE products are upgraded and improved at regular intervals to meet customers' needs to the best of our ability. Meanwhile, we guarantee 10 year's quality assurance and provide excellent services.

AIRPIPE products are upgraded and improved at regular intervals to meet customers' needs to the best of our ability. Meanwhile, we guarantee 10 year's quality assurance and provide excellent services.

Suitable working conditions and extrusion standard

- Suitable fluid: compressed air, vacuum, nitrogen and other gases.
- The maximum working pressure at -20 °C to 70 °C (-30 °C to 80 °C), 13bar.
- Vacuum: 0.13bar absolute pressure.
- Seamless Extruded Aluminum tube (GB/T4337.1-2000).

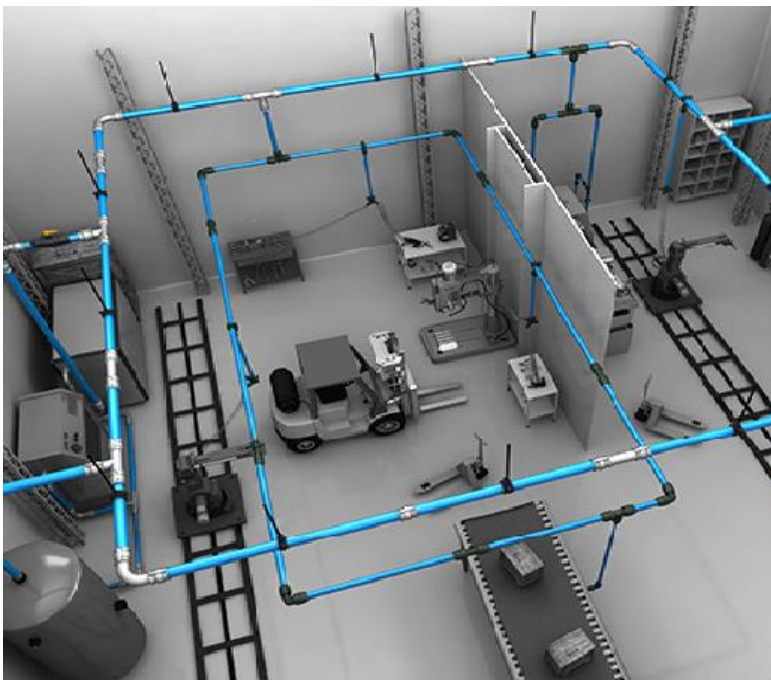

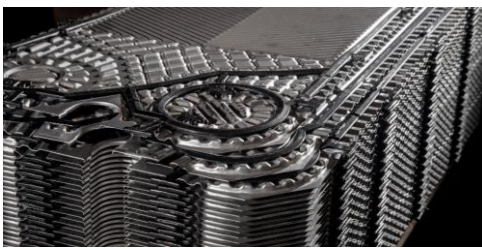

Plate Heat Exchanger, Spares and Services

We provide services for selection of right heat exchanger for the various industries. We offer correct plate heat exchangers for the various applications. We cater Food and Dairy industries, Pharma industries, Fertilizer and chemicals plants, Petrochemicals, Refineries and Steel Plants, HVAC applications, Marine Industries and Heat Recovery Application.

Our offered wide range of products helps industries for saving of energy and increase productivity.

We also offer comprehensive and pro-rata basis spares and services to the existing heat exchangers in the plants. We also cater industries through various types of AMCs and ARCs for the existing plate heat exchangers in the plant.

Separation and Dewatering Equipment

We represent high speed separators of well known brand and are trusted by customers in a range of industries, primarily for separating liquids.

Decanter centrifuges, which work at slower speeds, are used in applications such as dewatering of sludge in waste water treatment plants, ETP and STP.

DG Sets

We offer technologically advanced Smart gensets **of the range from 5KVA to 1250KVA.**

With this, it aims to enhance overall ownership experience with timely predictive & preventive checks thus yielding non-stop product performance for critical power back up applications.

We can provide new gensets, services and aftersales services for all reputed makes of DG sets.

Project Consultancy & others

We are carrying out the energy audit study for all types of Manufacturing Industries, Chemical Plants, Power Plants, FMCG, Moulding, Mines and many more.

Water, Steam and electricity are major expenses in any business today. Ever increasing utility prices and stricter regulations pertaining to commercial energy consumption has made it imperative for modern business to ensure optimum utilization of energy resources and convert to cheaper and more sustainable energy resources.

Efficient energy consumption is crucial for the economic success of all companies' bottom lines.

AJTPL helps our customers in improving the energy efficiency of their facility and aligning current consumption with current industry benchmarks.

Rental Equipment

For the various industry need during any emergency or as an optional requirement, we offer various equipment on rental basis. Our offered products on rental basis are:

- Air Compressors
- Air compressor accessories
- DG sets of various capacity (kVa)
- Decanters for rental/trial purpose

We request you to contact us for any requirements at your end & kindly send us your valuable inquiry at below address:
